text2bid

Virtual Bidding Software

Text2Bid® is a full-featured, virtual bidding software that transforms virtual/silent/live auctions, golf charities, and galas to raise money before, during and after a virtual or in-room event. Improve guest engagement and optimize yield with a virtual bidding solution to place bids, raise the paddle, buy items, and make donations.

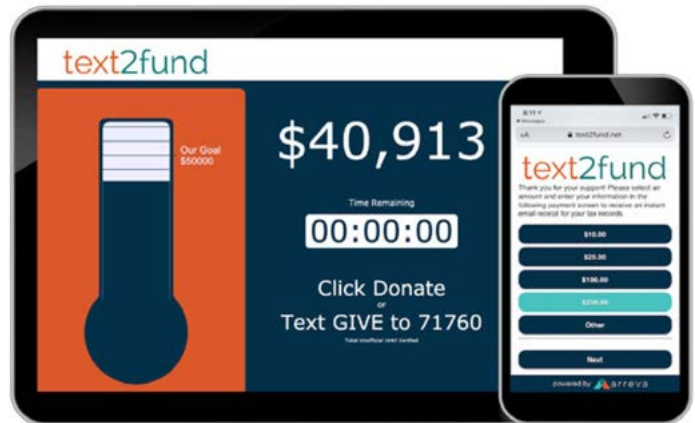

ActiveYield™ Features of Text2Bid

text2fund

Virtual Mobile Donation Software

Text2Fund® is a powerful and versatile mobile, text-to-donate software that helps nonprofits rapidly deploy mobile fund-raising and donation campaigns with impact, providing donors with a convenient and easy way to give anytime, anywhere by simply texting a keyword to make a donation.

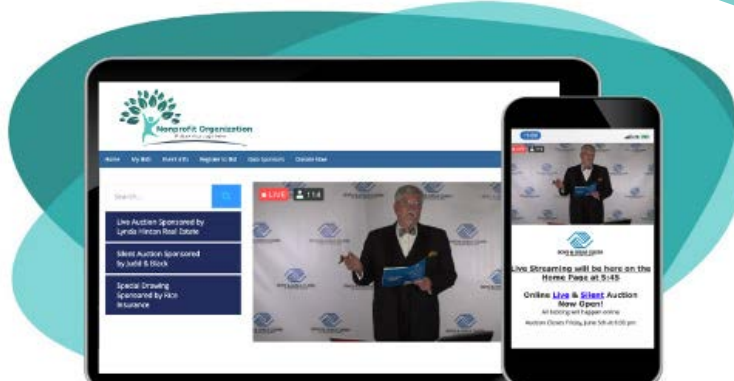

Track Campaign Status and Payments

maestroauctioneer

Virtual and Live Auctioneer Service

MaestroAuctioneer™ provides a full-service auctioneer, enriching your virtual or in-room auction event with a real-time bidding voice. MaestroSoft certified auctioneers have the training and expertise to energize and optimize the virtual auction experience for your guests and maximize fundraising results from your benefit, gala, golf tournament, or other event.

qCheck

Payment Processing

qCheck provides you with a single stop, convenient, and powerful payment processing account to securely process credit card payments without signatures or bulky terminals. Use qCheck when you sell tickets, accept cash donations, accept Text2Fund® text donations, and process charges for in-room auctions, virtual online auctions, and Text2Bid® mobile bidding
