

PRODUCT PRESS RELEASE

Trinidad and Tobago Taps Stertil-Koni Mobile Column Lifts to Expedite Vehicle Servicing at its Water and Sewage Authority

For Immediate Release

STEVENSVILLE, MD, March 2, 2021 – Heavy duty vehicle lift leader Stertil-Koni today announced that the company’s widely used ST-1085 Mobile Column Lifts have been selected by the Water and Sewage Authority (WASA) of Trinidad and Tobago to help the organization achieve its primary mission: To provide the population with “access to a reliable and high quality water supply on a 24/7 basis.”

Here’s how the Stertil-Koni lifts are making an immediate difference. Because each Mobile Column Lift can safely, efficiently and reliably lift 18,500 lbs. -- per column -- WASA techs can now raise water and sewer trucks, crane trucks, and other heavy equipment scheduled for maintenance and repair with the single push of a button.

WASA techs prepare to service a vehicle on Stertil-Koni Mobile Column Lifts

Explains Peter Bowers, Stertil-Koni’s Technical Sales Support Manager, “This level of heightened operating efficiency can be a real game-changer for many organizations and is the direct result of world-class engineering, coupled with an intensely focused level of customer service.” Each Stertil-Koni Mobile Column Lift is made from high tensile DOMEX steel, utilizes reliable hydraulic technology, features a full-color touch-screen control console, delivers safe and fast lifting and lowering every time and has an ultra-safe mechanical locking system – all as standard.

Making the partnership with WASA possible was Stertil-Koni's representative in Trinidad and Tobago, Takoor Ramnath, owner of Champion Marketing & Equipment Services Limited. As he notes, "The mission of WASA is aligned with ours because they leverage world-class industry expertise to offer vital services using the most advanced technologies. From a practical standpoint, there was no need for an extensive installation procedure with Stertil-Koni Mobile Column Lifts. Now, vehicle lifting for WASA is much more convenient and, because these lifts are truly mobile, it can be done virtually anywhere on the customer's site."

Stertil-Koni Mobile Column Lifts are indeed mobile and can be used outside on a firm, stable surface when wind loads are minimal

Concluded Dr. Jean DellAmore, President of Stertil-Koni, "We specialize in serving a broad range of heavy duty vehicle lifting needs across North America and are proud to support WASA in Trinidad and Tobago. Stertil-Koni's superior engineering technology coupled with the local expertise and customer-centric dedication of Champion Marketing & Equipment is truly a winning combination that is helping WASA achieve its important mission."
