

ZEUS Ordering Mobile App

The MRO supply chain in the palm of your hand.

The ZEUS Ordering mobile application allows **field technicians** to remotely identify needs, and order parts on-the-spot.

Part of the robust ZEUS Platform

SDI's comprehensive ZEUS platform includes a full suite of **MRO services** ranging from eProcurement, Inventory Management, Supplier Management, and Order-to-Shipment Tracking. The ZEUS Ordering mobile app specifically supports retail and facilities management technicians.

Real-time access from ANYwhere

Field technicians can access a single hosted catalog of MRO, PPE and Essential materials from their truck, home, job site, you name it. Order everything from general maintenance materials, PPE, HVAC and plumbing to electrical materials. Catalog can be configured to include customer-specific OEM suppliers, as required.

One-stop shopping convenience

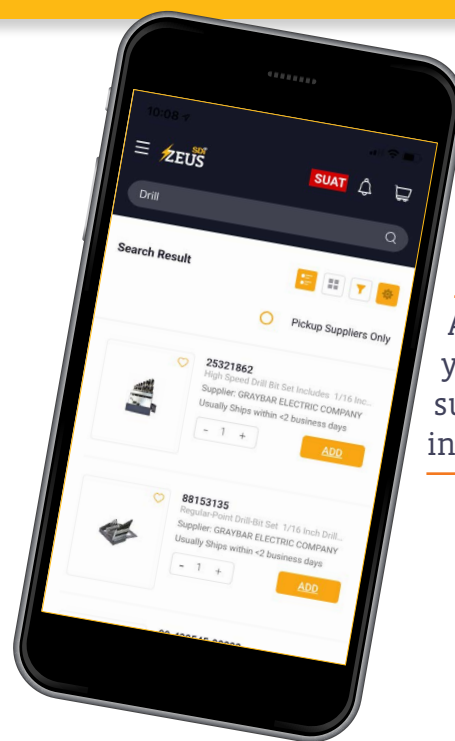

Combined with **SDI Sourcing & Procurement** services, the platform enables technicians to perform one-stop shopping for repair materials, eliminating the time-consuming exercise of going from supplier to supplier searching and ordering material required for repair.

Gain visibility – and control

ZEUS Ordering enables field technicians the benefits of an actively managed supply base while delivering leverage and budget certainty to the enterprise. Working with SDI's **ZEUS Analytics**, the complete platform provides real-time supply chain visibility.

Key features:

- E-catalog of customer-specific parts & supplies
- Punch-out to external catalogs
- Native for consistency across applications
- Robust spend analytics and reporting
- Track and trace shipments and POD via FedEx, UPS, and many LTL carriers

Access **ALL** your favorite suppliers in **ONE** app.

- Non-stock ordering integrated into app
- iOS and Android compatible – accessible via phone or tablet device
- PPE & Essential Materials available via app
- Omni-channel: buy online, pick up in store, drop ship, centralized or decentralized inventory
- Sourcing Services built in
- 24/7/365 Customer Service for catalog and non-catalog order assistance

Key benefits:

- **Improved Wrench Time** - Minimizes tech time spent searching for/shopping for/driving to parts suppliers
- **First Call Completion** – All parts & supplies through a single portal
- **Spend Leverage** – Enables aggregation and leverage of spend and managed supplier performance (delivery, accuracy, price, etc.)
- **Standardization** – Parts and suppliers
- **Visibility & Control** – Of all parts purchasing and supply chain
