## About The Global Outsourcing 100

As the global, standard-setting association and advocate for outsourcing professionals and the organizations they support, IAOP® annually produces subsequent research to help companies in their outsourcing decisions:

- *The Global Outsourcing 100* – the annual listing of the world's best outsourcing service providers – in its 15<sup>th</sup> year

*The Global Outsourcing 100* and its sub-list are essential references for companies seeking new and expanded relationships with the industry's best companies. The list includes companies worldwide that provide the full spectrum of outsourcing services — not just information technology and business process outsourcing, but also facility services, real estate and capital asset management, manufacturing and logistics. They include not only today's leaders but tomorrow's rising stars.

Companies of all sizes, from around the world and from across the entire outsourcing industry - information technology outsourcing, business process outsourcing, facility services, real estate, design, testing, manufacturing and logistics, to name a few – can apply for inclusion on this list. IAOP Membership IS NOT REQUIRED, nor is it considered in compiling the final list.

To help ensure participation by a broad cross-section of the industry, *The Global Outsourcing 100* list includes larger established global firms, referred to as 'Leaders,' smaller, faster-growing firms with less than \$50 million per year in revenue and/or fewer than 5,000 employees, referred to as 'Rising Stars,' as well as 'Advisors,' regardless of size. Companies are first organized by Leader, Rising Star or Advisor criteria, then evaluated based on the four judging categories. The final list is composed of the top-scoring companies, regardless of type.
