ADVOCATES

The Healthcare Advocate Summit aims to be the premier event for anyone involved in the patient journey for medication access. This event is For Advocates, By Advocates – and by design will consist primarily of Advocates from across the healthcare landscape. We have successfully reached over 69 healthcare facilities across 35 states. We are on track to meet and exceed our goal of 300 Advocates attending, making this the largest gathering of Advocates under one roof. These Advocates live the day-to-day challenges associated with Navigating Access and Reimbursement on behalf of the patient.

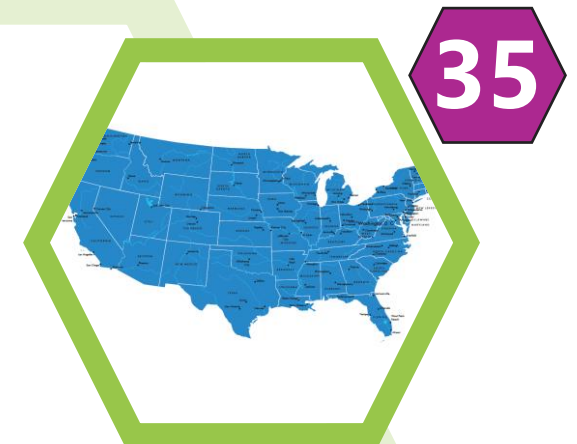

Healthcare Facilities

INDUSTRY

The healthcare industry, from Manufacturers to Specialty Pharmacy to Technology Solutions have responded with overwhelming support for this event. We have already exceeded our initial goal of 100 Industry leaders registered to attend. Many leaders across the healthcare industry are eager to actively engage with growing and influential community of healthcare professionals, the Advocate.

RATIO

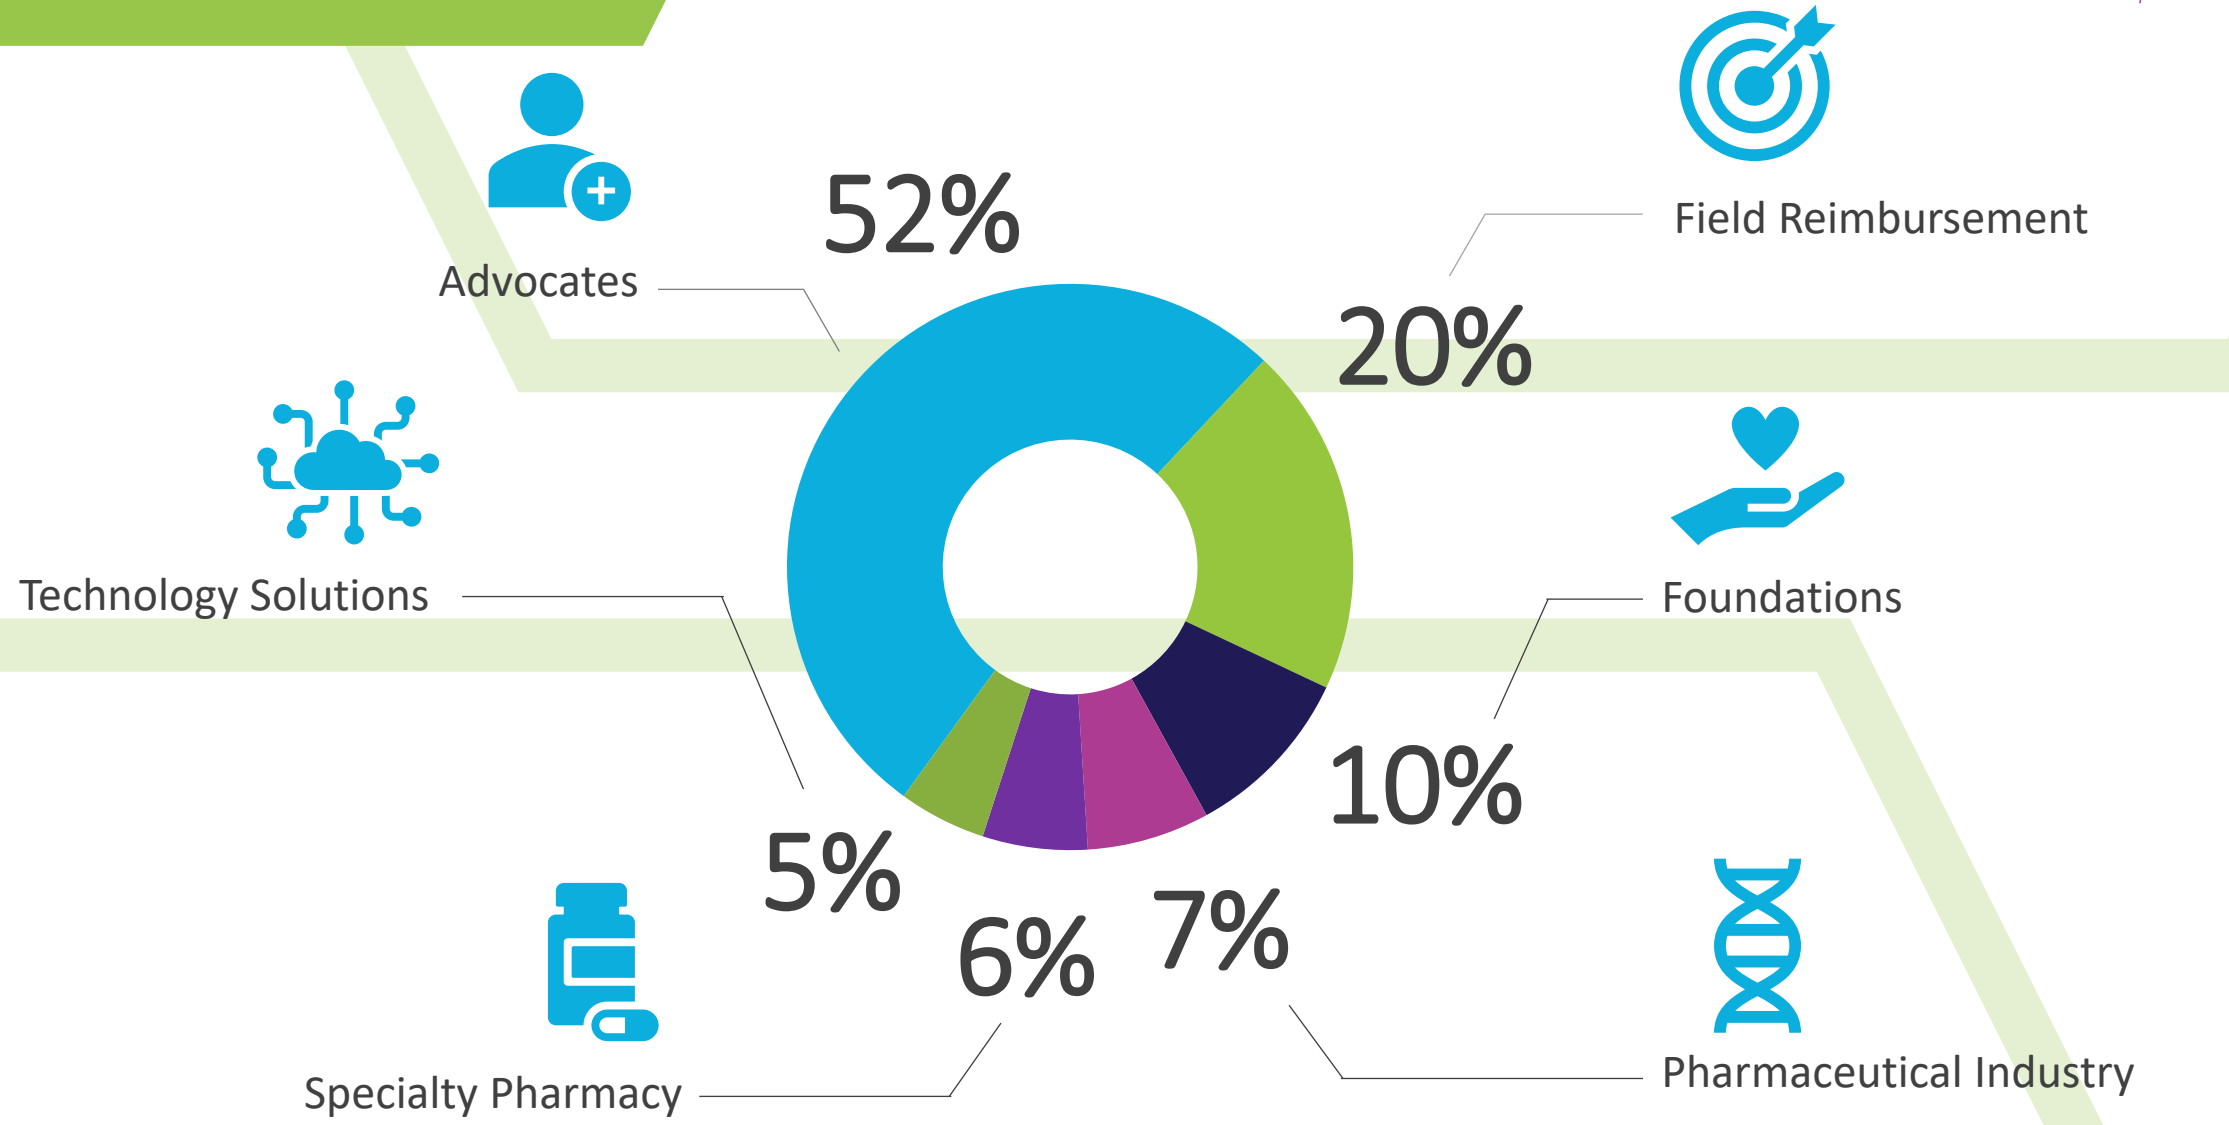

As the number of attendees continue to increase, we will strive to maintain a 3:1 ratio of Advocates to Industry professionals.
