

Roll Stop™

The ultimate choice for circular or cylindrical product transport.

Transport your roll products safely and securely with Roll Stop.

Roll Stop protects your packages from moving or falling rolling during transport, keeping you and your products safe from load shifting. Safer than pyramid stacking, Roll Stop is made for easy stacking and can nest for minimum storage space. Recyclable, weather-proof, and a reversible design for added stability is what makes Roll Stop the ultimate choice for circular or cylindrical product transport.

BENEFITS

- Fits on a standard 48" x 48" pallet.
- Can hold up to 2400 pounds.
- Stops rolls from moving during transport.
- Holds up to 4 10-12" diameter rolls per layer.
- Safer than pyramid stacking, keeping personnel safe from load shifting.
- Keeps roll-shaped products safe and secure.

CAPABILITIES

Roll Stop is formed for easy stacking and can nest for minimum storage space.

Strong & Durable

 Each Roll Stop is outdoor weather-proof and capable of withstanding up to 2400 pounds of weight.

Reversible

 Reversible design allows for roll protection above and below the roll for added stability.

Recommended Roll Diameter	~10-12"
Roll Capacity Per Piece	4
Max Weight Capability	2400 lbs
Pieces Per Pallet	1200
Pallet Weight	650 lbs
