INTEGRATED OUTPATIENT AND RESIDENTIAL
TREATMENT CENTERS
NAPERVILLE, NORTHBROOK, CHICAGO

The new North Shore facility will offer 21 residential beds for adults 18 and over, with 12,500 square feet of treatment facilities to provide integrated, comprehensive care.

Northbrook, IL. (July 2021) -- **SunCloud Health**, the organization known for providing a sense of community and a strategic, sustainable approach to treatment and recovery at locations in Northbrook, Naperville, and Chicago (Lincoln Park) is proud to announce the opening of a brand-new residential treatment facility, located at 1535 Lake Cook Road, Building 3, Northbrook, IL 60062.

Opening Friday July 16th, the center will offer 21 residential beds for adults in need of round-the-clock care, with the facilities, resources and support required to provide inpatient service to all that walk through their doors. Now accepting new patients, inquiries can be made by visiting their SunCloudHealth.com.

“We could not be more thrilled to be expanding our depth of services with our new residential facility,” said Rachel Goodwin, LPCP and CDAC, Director of

Residential Programs at SunCloud Health. “Our patients will feel right at home from day one, we will be ready to make an immediate impact and guide them on their way to living healthy, sustainable lives. We look forward to continuing to implement our integrated approach and strategic systems in our new setting to positively impact patients that require this depth of treatment.”

Specializing in treating those who struggle with complex co-occurring eating disorders, substance use disorders, process addictions, mood disorders and related trauma, SunCloud Health patients enter their care voluntarily and commonly step up from IOP or POP or down from inpatient hospitalization. SunCloud Health operates on the philosophy that “life gets big when diseases shrink,” and as such focuses on providing comprehensive tools and care needed to lay a foundation for a sustainable recovery in full support of their patients desire to live free as they embark on a lifelong journey of greater health.
