

ALLIED

ENVIRONMENTAL SERVICES, INC.

RESPONSIVE INDUSTRIAL MAINTENANCE
AND ENVIRONMENTAL FIELD SERVICES

SINCE 1987

Who we are

For more than 30 years, Allied Environmental Services, Inc. has provided responsive and effective industrial cleaning and environmental field services to private industry, municipalities, military, hospitals, and public facilities. We are a proud, privately owned small business with “large business” capabilities.

We provide comprehensive service for scheduled maintenance projects, facility shutdowns, site remediation projects and emergency response situations. With an expansive equipment fleet and multi-trained personnel, we are capable of providing safe, responsive and cost-effective service throughout the Great Lakes region.

Core Services

Whether your project is planned or unexpected, you can't afford to waste time or cut corners. You've built your business on quality work done safely, meticulously, and on time.

That's our style, too.

INDUSTRIAL CLEANING & MAINTENANCE

- Storage tank cleaning
- Pipeline and sewer jetting
- Hydro-blasting and pressure washing
- Vacuum truck services
- Dust removal and filter replacement
- Confined space entry and rescue

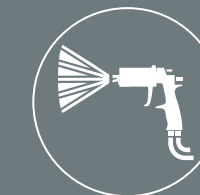

ASBESTOS & LEAD PAINT MANAGEMENT

- Comprehensive inspections
- HUD compliant lead risk assessments
- Abatement (removal / repair /encapsulation)
- O & M planning
- Abatement specifications and oversight
- Air monitoring

ENVIRONMENTAL FIELD SERVICES

- Emergency spill response and remediation
- Facility closure and decontamination
- Environmental demolition
- Storage tank closure and removal
- Hazardous materials/waste management
- Mold remediation

INDUSTRIAL COATINGS & LININGS

- Exterior and interior - tank, pipeline and structural
- Vessel isolation and product evacuation
- Cleaning and hydroblasting
- Abrasive blasting and surface preparation
- 100% solids, phenolic and epoxy coatings
- Thickness monitoring and adhesion testing
- Return vessel to service

If you don't see your need listed?.....*ask us.*

We've probably done it!

Industrial Cleaning and Maintenance

Allied has provided responsive and comprehensive industrial cleaning and maintenance services in every imaginable setting: from small machine shops, to regional railroads, global manufacturers and petroleum refineries. We understand that industrial processes are constantly evolving, and we commit ourselves to updating methods and equipment to ensure our clients receive safe and effective service.

- ▶ Storage tank evacuation and cleaning
- ▶ Pit, sump and vessel cleaning
- ▶ Hydro-blasting and pressure washing
- ▶ Pipeline and sewer jetting
- ▶ Vacuum truck services
- ▶ Dust removal and filter replacement
- ▶ Industrial duct cleaning
- ▶ Heat exchanger and cooling tower cleaning
- ▶ Hazardous materials management and transport
- ▶ Confined space entry and rescue

Environmental Field Services

From emergency spill response to treatment system installation and site restoration, Allied has the experience and capabilities to execute your remediation strategy.

We've completed thousands of environmental remediation projects in diverse settings, ranging from small spills to multi-million dollar Brownfield redevelopments. Our hazmat teams and equipment are ready 24/7/365 to respond immediately to environmental emergencies or scheduled projects.

- ▶ Emergency spill response
- ▶ Facility closure and decontamination
- ▶ Environmental demolition
- ▶ Excavation and transport of contaminated soil
- ▶ Underground storage tank (UST) closure and removal
- ▶ Hazardous materials/waste management
- ▶ Sediment removal
- ▶ Mold remediation

Asbestos & Lead-based Paint Management

Allied has completed over 6,300 asbestos and lead-based paint projects. From residential dwellings to heavy manufacturing facilities and oil refineries, our staff of certified and experienced inspectors and abatement crews understand the sensitivities and complexities of asbestos and lead paint projects. We work in strict compliance with environmental regulations to complete the project safely, efficiently, and thoroughly.

- ▶ Comprehensive inspections
- ▶ HUD compliant lead risk assessments
- ▶ Lead sampling by XRF
- ▶ Abatement (removal / repair / encapsulation)
- ▶ Operations and maintenance planning
- ▶ Abatement specification writing
- ▶ Third-party oversight
- ▶ Air monitoring

Industrial Coatings & Linings

The integrity of a tank, pipeline or structural member is dependent on the quality of the coating and lining that protects it. Our highly trained and certified professionals take coating/lining projects from start to finish.

One contractor. One schedule. One invoice.

RETURN TO
SERVICE

Evacuation - Cleaning

- ▶ Isolate/blank and take out of service
- ▶ Evacuation and product transfer
- ▶ Setting legs / entry prep
- ▶ Cleaning (hydro blasting)
- ▶ Hydro testing
- ▶ Waste transport (haz & non-haz)

Blasting - Surface Preparation

- ▶ Commercial blast (SP-6)
- ▶ Inspection blast (SP-7)
- ▶ Near white metal blast (SP-10)
- ▶ White metal blast (SP-5)
- ▶ Pre-blast salt/chloride testing
- ▶ Weld treatment & spatter grinding
- ▶ Pitting abatement/filling

Coating Application - QA/QC

- ▶ Steel and concrete substrates
- ▶ Plural system applications
- ▶ 100% solids, phenolic, epoxy & siloxane
- ▶ Monitoring of ambient conditions
- ▶ Weld & seam stripe coating
- ▶ Continuous thickness monitoring
- ▶ Adhesion testing
- ▶ Holiday/pinhole testing

Return to Service

- ▶ Replace manways
- ▶ Remove blanks/blinds
- ▶ Install valves and connections
- ▶ Final verification with owner

Sustainability

Allied is committed to sustainable business practices and responsible corporate growth. We are devoted to business practices and operations that do not compromise the needs, opportunities and abilities of future generations.

Our focus is on minimizing our environmental footprint and supporting social and economic sustainability in all we do. Our goal will be continuous improvement. *Always.*

- Steven D. Carr, CEO

Safety

Our employees and their families are our most valuable resource and it is our core responsibility to ensure their health and safety. Allied also understands that safe work practices are the key to a successful project and a successful company.

Allied's Health and Safety Program has earned numerous awards from local and national agencies and trade organizations. Although we take great pride in these accolades, they are overshadowed by a greater reward... **returning every team member safely home to their family at shift's end.**
