

Creating Personalized Impactful Journeys For Your Customers

We use innovative technology solutions to facilitate digital transformation. From strategy to implementation and ongoing support, we provide white glove service to our clients.

Salesforce

Only fusionSpan is uniquely talented in designing, coding, testing, implementing, debugging, and supporting Salesforce integrations and applications. Our special expertise lies in Pardot, Marketing Cloud, Service Cloud, Health Cloud, Sales Cloud, Managed Services, and more!

Digital Strategy

Our focus is on the users complete digital journey, leveraging our expertise with Marketing Automation and UI/UX. We are passionate about creating meaningful digital spaces that elevate your audiences' priorities and organizational strategies.

Why fusionSpan?

Bridging Gaps Through Technology isn't just a tagline - it describes what we believe our clients can accomplish with a little additional support. Whether your organization is adopting new technology, or learning how best to leverage your current technology tools to fit your business needs, we are here to help you leverage technology to bridge your organization to your customers.

Integrations

fusionConnect is our fully managed cloud based Integration Platform As A Service (IPaaS) offering. We offer existing connections to most systems that today's organization use. Our expertise in software development and system integration has been successfully applied to dozens of integration projects. We specialize in building scalable, user friendly and cloud based solutions.
