

EVERYWHERE Communications Provides Vital Communications for Organizations on the Front Lines of World Events

EVERYWHERE Communications provides mission-critical communication for organizations operating in conflict areas and other challenging environments.

August 31, 2021 - The EVERYWHERE Communications platform is currently supporting NGOs leading earthquake response in Haiti, Hurricane Ida relief efforts in New Orleans, and US Government agencies supporting Wildland Firefighting efforts in the Western US. An EVERYWHERE-equipped Wildland Firefighter stated, "Having access to the exact location of resources on a fire is a game changer, another step towards safer wildland firefighting."

EVERYWHERE delivers communications solutions to customers operating in the world's toughest environments. Providing a vital communications link to keep deployed personnel connected and protected. We deliver global location, messaging, and SOS for total situational awareness on a single pane of glass. Leading the industry in innovative end-to-end solutions using EVERYWHERE Intelligent Routing™, we utilize the new \$3B Iridium® satellite network and Garmin® handheld communicators. EVERYWHERE Intelligent Routing™ is designed for users operating in and out of cellular coverage and leveraging our platform of Always Connected solutions.

"EVERYWHERE Intelligent Routing™ has been huge for us. Having a seamless tracking experience in and out of cell coverage has helped us protect our people in some of the world's most dynamic environments." – EVERYWHERE Customer Operating in Conflict Areas

"We solve hard problems for organizations that require connectivity for their people operating in challenging environments," said Patrick Shay, the company's founder, and CEO. "Our solutions are based on EVERYWHERE patented technology, and we have built a world-class team of mission-driven professionals dedicated to saving lives around the world."

"Establishing communications and making sure our people are protected is a pivotal step in accomplishing our mission. EVERYWHERE provides our teams the peace of mind to better the world by relieving human suffering on a global scale." – EVERYWHERE NGO Customer

About EVERYWHERE Communications: Led by a team that has deployed \$2B in connected and IoT services, EVERYWHERE Communications (<http://www.everywherecomms.com>) provides multi-mode cellular and satellite data communications, purpose-built for enterprise and government customers, powered by patented technology deployed in over 120 countries. In or out of cellular coverage, we have you connected globally, EVERYWHERE. The company is headquartered in Annapolis, MD with a Portland ME technology center.
