CUSITech Grows Financial & C-Store Service Offering With Addition of Account Executive, Byron Baylor

Westerville-Ohio: CUSITech is excited to announce that Byron Baylor has joined our team as Account Executive. Byron has spent over 22 years improving the customer experience in various roles. Most recently, as Service Delivery Director for Diebold Nixdorf, he acted as a liaison between OEM's, service providers, and institutions to find cost effective solutions to software, service, and operational problems so that institutions could maximize uptime. Byron said, "My goal at CUSITech is to empower clients so that they can improve the customer experience through collaboration and strategic problem solving."

Craig Kalie, CUSITech CEO said "Our Financial & C-Store clients will be excited to work with Byron given his experience." Byron is ready for the opportunity and mentioned, "CUSITech has a track record of delivering exceptional service and I'm happy to build relationships with new clients and work together to solve their biggest challenges."

About CUSITech:

CUSITech provides national onsite implementation services including Low Voltage, Electrical and Hardware Installations on a project/rollout basis. Most IT departments struggle to execute multi-site technology upgrades and new store rollouts with unreliable service providers and multiple layers of outsourced labor. CUSITech provides a single point of contact to manage the planning, surveying, installation, and implementation with our nationwide skilled W2 technicians, so you can hit go-live dates on time and on budget.
