

FOR IMMEDIATE RELEASE

Strategic Information Group Announces New Corporate Headquarters in Rock Hill, South Carolina

Office realignment part of company's continued global expansion.

Rock Hill, South Carolina, [date] – Strategic Information Group, the award-winning provider of Enterprise Resource Planning (ERP) software, services, and support, today announced the move of its corporate headquarters from Cardiff-by-the-Sea, California to Rock Hill, South Carolina. The move marks the continued transition of day-to-day leadership from CEO and Owner, Doug Novak, to Suzy Reno, who was named Strategic's President in January 2021. Reno is based in the company's Rock Hill headquarters.

"Strategic has long followed a decentralized operational model, enabling us to optimize our talent and best serve the needs of our customers and partners," said Suzy Reno, President, Strategic Information Group. "This move is part of a larger realignment of our office spaces, which I'm pleased to announce also includes our global expansion to Ireland, the United Kingdom, India and Thailand in recent years."

With the headquarters move, the current Cardiff-by-the-Sea office will be closed. Customers are advised to note the new office address and phone number and to continue sending payments to the company lock box, or alternatively, use ACH:

Strategic Information Group
454 Anderson Road South

[About Strategic Information Group](#)

Strategic Information Group (Strategic) is a global QAD Channel Partner and Reseller in the US, Canada, Ireland, and the United Kingdom, as well as a worldwide services provider. We provide QAD next generation ERP software that meets the challenges of today's manufacturers from start-ups to market leading companies, remaining trusted advisors and consultants throughout the lifecycle of our customers' business strategy. We serve all six QAD target verticals with a full range of enterprise applications, including QMS and CRM in addition to ERP. With over 28 years of experience as a QAD partner, we specialize in delivering results through proven solutions and services that maximize the value of companies' technology investments by streamlining operational efficiency and reducing operational

expense. From our innovative products that extend functionality such as Enterprise Banking Solutions (EBS) and SIG EDI, and streamlined industry-specific processes such as FDA Validation and Automotive Sequencing, to our team of seasoned professionals performing integration, implementation, or fully outsourced managed services, Strategic consultants understand your industry challenges and speak the language of manufacturing.
