Pre-Registration Overiew

In preparation for your upcoming appointment, here's what we'd like you to do:

🪪 **Information Verification**
Make sure we have the most current information.

📄 **Consent Forms (5)**
Review our policies and provide your consent.

☑️ **Patient Health Questionnaires (2)**
Depending on the appointment, your provider may have requested you to answer questions about the patient's health.

You're able to finish these later by clicking on the link and using the same code again.

  - Pay Plan Management
  - E-Bill Notices & Pre-collections
  - Multi-Patient Acct. Mgmt.

Across Platform Function

- Insurance Eligibility and Verification
- Two-way Texting
- Payment Processing

Patient registration can be really simple. Unfortunately, healthcare has over-complicated it. Patient Access, Registration, and Scheduling teams are overloaded with complex processes and endless clicks, while patients are given piles of paperwork, consents, questionnaires, and duplicative forms. Redde Registration simplifies the entire process. We automate the workflow for your teams while making it easy and intuitive for your patients to self-service their way through.
