

Amplify Your Lesson Program!

MatchMySound

Introducing MatchMySound™

MatchMySound offers an exciting enterprise solution for music retailers who want to amplify their student-teacher lesson experiences to ensure greater engagement and retention, while getting the data-driven insight retail owners need to grow their lesson programs.

MatchMySound is an intuitive digital platform designed exclusively for music retail outlets with instrument lesson programs. With it, teacher and student progression as well as engagement can be monitored from any computer or mobile device.

Offer state-of-the-art technology that provides students with a guided practice environment featuring immediate detailed feedback on their pitch, rhythm, and tempo. MatchMySound is perfect for store owners and lesson programs who want a smart and user-friendly way to both enhance the in-person lesson experience and facilitate live, online learning! This innovative platform empowers owners, lesson programs, and teachers with the digital tools they need to retain, engage, educate, and assess their students.

This widely celebrated platform works with all pitch-based instruments, including guitar, piano, brass, strings, woodwinds – and voice!

A Modern Solution for Your Lesson Program

Your teachers will love these features!

Revolutionary Feedback Technology -

Assess all instruments (including voice!) with the most accurate monophonic and the only polyphonic technology for guided practice and instant feedback.

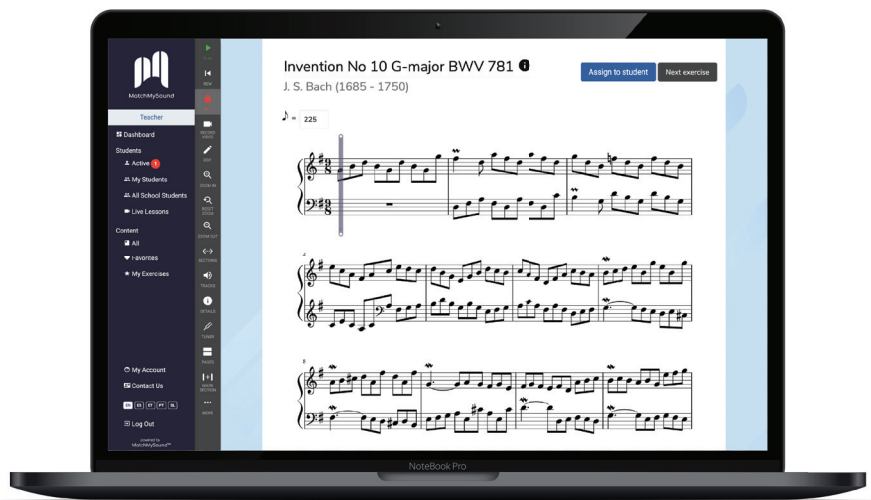

Student Video Submission - Use this popular tool to review student posture, hand position, and level of participation.

RealTime Audio and Video - Connect with your students using our latest low-latency "Zoom for musicians" technology. Create your very own synchronous online studio, complete with all the tools musicians love!

Instant Audio Exercises - Teachers can create instant audio exercises by attaching PDFs and image files.

Easy Upload - Upload music XML files - including full scores - in minutes!

Parent Account - Parents of students under the age of 18 are issued their own accounts to further ensure a safe learning environment via full transparency.
