# VETERANS' VILLAGE

Veterans' Village is designed to be a place where veterans find shelter for mind and body, find healing and comfort...and a place to begin repairing their lives. A completely new and holistic approach to ending veteran homelessness, Veterans' Village brings together several different types of shelter, short-term, and long-term housing – providing an option that's appropriate for each veteran's unique situation and stage of their journey back.

The Village provides a full range of critically important supportive services and assistance, formal/informal/peer counseling, and always provides 1-on-1 care.
