Preparing Your Pot

Planting Guide

Add accents of color and texture to personalize your space and create a seamless natural result which you can change with your whim or with the seasons.

Planting Guide: Pull each stem apart from the main stem, bending and twisting as desired for the most natural look. Slotplant into pot base (Dirt, mulch, straw, foam, or equivalent) and manipulate stems to desired effect.

1. SEPERATE STEMS FROM MAIN STEM CREATING A LARGER PLANT FOOTPRINT

2. BEND STEMS DIFFERENT DIRECTIONS TO MIMIC NATURAL GROWTH.

3. PLANT STEMS INTO POT OR PLANT BED OF CHOICE SEE PLANTING GUIDE FOR RECOMMENDED BASE OPTIONS.
