Caspio Receives Top Rankings on Global Software Review Sites

Pioneer of No-Code Continues to Lead the Leaderboard

SUNNYVALE, Calif., January 31, 2022 – Caspio, the leading platform for building enterprise cloud applications without coding, today announced the company has earned numerous accolades, badges and rankings from several of the world's most recognized software review sites, including G2, GetApp, Software Advice and Capterra.

Notable accolades include **'Leader, Winter 2022' for Low-Code Development Platforms** (G2); **'Category Leader' for No-Code Platforms** (GetApp); **'Front Runner 2021' for No-Code Platforms** (Software Advice); **'Shortlist 2021' for No-Code Platforms** (Capterra).

"We are grateful to receive such robust recognition from our customers. These rankings underscore Caspio's commitment in delivering the best no-code application development platform and customer experience," said Frank Zamani, CEO of Caspio.

The Caspio platform provides unlimited app builders, unlimited app users, an integrated cloud database built on Microsoft SQL Server and seamless app deployment on any web property — all included as standard features in every plan.
