**Navigo is proud to be launching its new concierge service that allows people to get the best prices on cable, internet, and other services for their homes**

**Atlanta, GA - February 14, 2022** - Navigo is officially opening their doors in the Atlanta area. Navigo saves individuals and groups time and money by providing its customers free of charge the best deals on TV, internet, cell, and home security services nationwide. Navigo offers a concierge service, where its team does all the leg work for you. By partnering with over 25 major carriers, including AT&T, CenturyLink, DirecTV, Cox, HughesNet, Spectrum, Xfinity, and more, Navigo locates the best pricing for its customers—no matter what home tech services they need nationwide.

What started out as several Atlanta-based friends being tired of the confusing and time-intensive process of finding home technology services, Navigo is here to revolutionize the service. Navigo provides tailored plans to individuals and groups, eliminating the huge hassle of finding carriers available in your area and figuring out what deal is best for you.

Navigo has also pledged to donate a portion of all their proceeds to Atlanta Ronald McDonald House Charities, a charity that helps families with sick children stay close to each other and helps to provide the care and resources families need when they need them most.

If you are interested in forming a free group for your work, homeowners' association, or other groups to save on TV, internet, cell, and home security services, please contact CEO Stuart Poole at [stuart.poole@navigoforward.com](mailto:stuart.poole@navigoforward.com).
