A Focus On Improving the Workplace By Welcoming Humanity into Your Organization

The Deeply Human Workplace

Tap into What People Need, Build Commitment on Your Teams, and Create a Workplace that Employees Love

SAL SILVESTER

From Executive Coach and writer Sal Silvester, the author of *Ignite! The 4 Essential Rules for Emerging Leaders*, *Unite! The 4 Mindset Shifts for Senior Leaders*, and *Stakeholder Centered Coaching: Maximizing Your Impact as a Coach (with Marshall Goldsmith)*, this next book explores the six Cs of 'The Human Workplace Needs Model'. It provides leaders and teams with a roadmap for creating healthier, more aligned, and deeply human workplaces.

Our deeply human behaviors are the sparks that ignite innovation and creativity. They are keys to effective communication and collaboration.

When leaders dismiss 'the human touch' as soft, they fail to connect the economic value and competitive advantage that simple humanity brings to organizations. This mindset leads to organizations struggling with:

- Siloed working environments
- Outdated methods for solving new problems
- Poor leadership and team frameworks that are no longer relevant to today's complex and unpredictable business environments

It doesn't have to be that way.

The Deeply Human Workplace When leaders embrace this game-changing model and welcome humanity into their organizational culture, they cultivate a workplace environment where employees can unleash their full potential and find meaning in their work.
