Synagro to Highlight Services at 107th John J. Lagrosa Annual Conference and Exposition of the New Jersey Water Environment Association

Synagro's Elliot Pomeranz to present an Update on the Cumberland County Composting Facility

BALTIMORE, Maryland, May 3, 2022 – [Synagro Technologies, Inc.](https://www.synagro.com), the preeminent provider of biosolids and residuals solutions services in the North America, is pleased to announce its participation in the 107th John J. (Jack) Lagrosa Annual Conference and Exposition of the New Jersey Water Environment Association (NJWEA) in Atlantic City, New Jersey, May 9 to 13, 2022, at Harrah's Resort.

Join us inside Harrah's Resort at Booth 612 to learn about the many ways Synagro can assist you with biosolids and organic feedstocks management. From thermal drying and energy generation to digester cleaning, when it comes to biosolids, our mission is to be the most trusted provider of resource recovery solutions. We help our customers identify their needs and the solutions that are best tailored to most economically address those needs.

"We are looking forward to participating in the NJWEA Annual Conference and Exposition, and to be showcasing our services," announced Pam Racey, vice president, Business Development, Synagro. "We're equally excited to have Synagro's Elliot Pomeranz presenting during the biosolids workshop."

"I am pleased to be participating with an update on an important project," said Pomeranz, vice president, Rail (EPIC), Synagro. "I will be presenting "Update on the Cumberland County Composting Facility" on Thursday, May 12, during the Joint Mid-Atlantic Biosolids Association /NJWEA Biosolids Workshop – from 9:30 to 10:00 a.m."

About Synagro

Founded in 1986, Synagro Technologies, Inc. works to turn waste into worth by helping more than 1,000 municipal and industrial water and wastewater facilities in North America move toward safer, cleaner and more environmentally beneficial practices. For some, it's simply cleaning the water supply. For others, it's much more – we partner with them to process their waste for compost or energy pellets, creating healthy soil and sequestering carbon in the process. As the largest recycler of organic by-products in North America, we're trusted because we remove risks while keeping the logistics clean. Because we have the most experienced team in the industry, we can offer tailored solutions that ensure no waste goes to waste. Much of our work isn't pretty. But a greener world emerging from a cleaner one – worth coming from waste – and we think that's pretty beautiful. Visit [synagro.com](https://www.synagro.com) to learn more.
