

Next-generation ergonomic footrest FS-3™

Give your feet a seat.

An ergonomic footrest for all.

The FS-3 footrest delivers an ergonomic experience with an industrial aesthetic that is built to last; an easy choice for settings such as laboratories, industrial environments, healthcare and education.

Use cases

- Laboratory
- Healthcare
- Industrial
- Education

Rocker and base frame

Use the rocker independently to rock back and forth and encourage blood flow.

Specifications

Base Frame dimensions:

20.75" W x 12" D x 12.3" H

Platform dimensions:

20.75" W x 12" D x 3.75" H

(when measured from floor to front edge)

Weight:

14.7 Lbs

Height-adjustable from five to eleven inches in one-inch increments for a variety of heights.

The platform rests at a 12.5 degree angle when attached to the base for improved ergonomics.

Protects floors with rubber feet on the base frame and neoprene on the platform's curved edge.

Diamond-plated 14-gauge steel to withstand the use of multiple shifts year after year.

Removable rocking platform to encourage movement.

Backed by a 13-year warranty.
