

Corporate Capability Statement

collabware
intelligent ecm software

Collabware provides DoD 5015.02-STD intelligent enterprise content management (ECM) software for SharePoint and Office365 that improves information and records management while enhancing the way people communicate, collaborate, and consume information.

Our records management solution ensures regulatory and legal compliance requirements are met, including Presidential Mandate M-12-18 and NARA UERM. By increasing team productivity and protecting sensitive data, we help organizations quickly locate information needed to make better decisions. Our team supports a wide range of customers including public-sector organizations and fortune 1000-regulated enterprises.

Gold Independent Software Vendor (ISV)

Core Capabilities

DOD 5015.02-STD Certified Advanced Records Management Add-on for SharePoint for All Electronic, Email & Physical Records

Collabware CLM software integrates with Microsoft SharePoint to provide a simple, seamless, and transparent records management experience that meets the DOD 5015.02-STD records management standard.

Control and Content Security from Creation to Disposition and Enforce Rules Globally

The Collabware CLM Compliance System enables the creation, management, and automatic enforcement of organizational File Plans and Retention Schedules on all content being managed by Collabware CLM. Auto-classification rules can be utilized to determine the Compliance Policy that should be applied to a content item, and the Collabware CLM Lifecycle Workflow System can be utilized to enforce the retention and disposition behavior expected. No more document hoarding in your organization!

Case Management, Lifecycle Workflows, Search and Records Management Automation

Collabware CLM provides the Aggregates system for managing case templates and case instances. This system enables you to define and enforce your case governance rules, and drive increased user productivity by making content easier to find and work with.

Compliance Peace of Mind When Regulatory and Legal Requirements Are Being Met

Collabware is the expert in legal and regulatory compliant records management using SharePoint. Our DOD-certified solutions, Collabware CLM, enhances SharePoint to increase productivity, ensure requirements are met for Presidential Mandate M-12-18, and NARA UERM, and reduce cost of content filing and record declaration time with automating classification and declaration.

Accelerated Deployment, Streamlined Onboarding & Assured User Adoption

Collabware utilizes our proven, repeatable processes with our user experience focused SharePoint implementation methodology to drive user adoption and compliance with minimal end-user friction.
