LAWTOOLBOX MATTERS

Make your work easier with award-winning legal tools in Microsoft 365 and leading practice management platforms

AT A GLANCE

HIGHLIGHTS

- Most case management platforms rely on LawToolBox rulesets
- Only legal software sold directly by Microsoft

AWARDS

- Microsoft Partner of the Year Finalist 2021
- Microsoft 365 Best Integration Award 2018
- Microsoft 365 Best Sharepoint Solution 2016

"Together, Microsoft 365 and LawToolBox enhance collaboration, automate litigation workflow, and increase productivity of legal professionals."

MIKE DUNN

Director, Business Programs
Digital Justice, WW Pub Sec
at Microsoft Corporation

SOLUTIONS

Use the #1 legal add-in for Microsoft 365 to instantly calculate rules-based deadlines and sync to any calendar in seconds. Automate rules-based calendaring for a broad range of case actions in thousands of state and federal courts throughout the United States.

Organize all of your emails, files, notes, and deadlines by matter across M365 apps. Easily create new matters, meetings, appointments, and contacts from your Outlook inbox then save files and emails to the related matter. Create shared workspaces, search files across your entire M365 tenant, and more.

PARTNERS

Connect the patented rules-based deadline calculator to leading practice, case, and document management platforms. Enable the LawToolBox automated calendaring integration to centralize docketing and easily automate time-consuming tasks in your existing software.

BENEFITS

Never Miss a Deadline

Enjoy peace of mind with real-time notifications and automatic updates when court rules change.

Save Time with Automation

Save hours every week by automating the tedious task of calculating and calendaring rules-based deadlines.

Eliminate Human Error

Mistakes happen. Protect your practice and make sure your deadlines are always 100% accurate.

Reduce the Risk of Malpractice

Missed deadlines are the #1 cause of malpractice. Earn a discount on your malpractice insurance premiums for reducing risk with electronic docketing.
