Alpine Supply Chain Solutions Named a Great Supply Chain Partner by SupplyChainBrain

Company receives recognition as a highly valued supplier for its efficiency, customer service, and supply chain expertise

NAPLES, FL — August 1, 2022 — [Alpine Supply Chain Solutions](#), a supply chain consulting company driven to ensure their clients get the most value from their investments,, today announced it has been named to this year's SupplyChainBrain list of *100 Great Supply Chain Partners*.

The list is the result of a six-month online poll of supply chain professionals conducted by SupplyChainBrain. The call for nominations requires buyers and partners to nominate vendors and service providers whose solutions have made a significant impact on their efficiency, customer service and overall supply chain performance.

According to Michael Wohlwend, Managing Principal at Alpine, "Our inclusion in this list is representative of the hard work and dedication our team members put into every engagement. Our commitment to high growth clients like HJI Solutions, MONAT Global, and MJ Holding who are experiencing tremendous success and must expand capacity to onboard new customers and new products quickly is what sets Alpine apart. We're thrilled to receive this recognition based on nominations from our customers."

SupplyChainBrain doesn't hand this distinction out to any supply chain partner out there, a set of 10 criteria must be met. For the past two decades, SupplyChainBrain has reviewed nominations from thousands of vendors pitting them against the highest of standards in:

- Reliability
- Service excellence
- Value
- Knowledge of the customer's business
- Problem-solving skills
- An attitude of continuous improvement
- Solid after-sales support
- A positive "can-do" attitude
- Global reach
- Strong leadership.

As Brad Berger, SupplyChainBrain publisher shared, “For twenty years running, SupplyChainBrain has published our much-anticipated list of *100 Great Supply Chain Partners* — a select group of companies whose customers recognize them for providing outstanding solutions and services. Our six-month online poll of supply chain professionals requires a qualified response, asking them to nominate vendors and service providers whose solutions have made a significant impact on their company’s efficiency, customer service, and overall supply chain performance. This year’s field of nominees was highly competitive and overall excellent – coming from all sectors of supply chain management.”
