

For Immediate Release

The Besen Group Hosts Private 5G Cocktail Reception 2022 sponsored by Oceus

Washington, D.C., September 19, 2022 (PRWEB) -- The Besen Group, an international mobile data industry management consulting practice headquartered in the Washington DC area, with representatives in Paris and Tokyo, hosts its inaugural Private 5G Cocktail Reception 2022 sponsored exclusively by Oceus on September 28th from 7pm PST to 10pm PST at the [Clique Bar & Lounge](#) located in the heart of The Cosmopolitan of Las Vegas.

"We are delighted to have Oceus as the official sponsor of our Private 5G Cocktail Reception 2022," said Alex Besen, Founder and CEO of The Besen Group LLC. "We are looking to forward networking with key private networks industry executives in a sophisticated intimate environment with panoramic views of the casino floor that will include variety of drinks and appetizers."

"As a global technology innovator providing 5G network solutions to government and commercial enterprise customers, Oceus has deployed over 150+ private cellular systems that are designed, managed and operated by our software suite of tools", said Paul McQuillan, Chief Growth and Strategy Officer of Oceus. "Oceus is providing wireless private networks that allow transmitting and receiving across many different data signals, with a software-defined network in deployable configurations, an enterprise on-premise solution or a cloud-based solution."

Event registration is by invitation only. Please send an email to rsvp@thebesengroup.com with your RSVP to attend the event.

About Oceus (www.oceus.io)

Oceus is a global technology innovator providing 5G network solutions to government and enterprise customers. We deliver extensive broadband connectivity with dedicated and dynamic spectrum, massive MIMO, and network slicing in deployable enterprise and cloud-based solutions that solve unique communication and data challenges in a wide range of public and private networks. Our edge computing capabilities provide low latency, ultra-high reliability and enhanced security for wireless IoT devices and applications. The Oceus Intelligent Controller provides software-defined network orchestration using AI/ML to automate the management of 5G enterprise systems and applications. Oceus is headquartered in Reston, Virginia, with Oceus Technologies, our R&D Lab, in Plano, Texas and our integration and Operations Center in The Colony, Texas.
