BIOLOGICAL • RADIOLOGICAL • HAZARDOUS • RECYCLING • WASTE-TO-ENERGY • REMEDIATION • ENVIRONMENTAL HEALTH & SAFETY

ACTenviro is a full-service environmental firm offering the following solutions:

TRANSPORTATION AND DISPOSAL

- Chemical waste
- Radioactive waste
- Biological waste
- Universal waste
- Non-hazardous liquid and solid waste

RECYCLING

ACTenviro offers a wide variety of unique recycling solutions that result in the recycle or reuse of the vast majority of our clients' generated waste.

- Solvent recycling
- Capture of inputs for solid and liquid waste derived fuels
- Battery recycling
- Universal waste recycling
- On-site solvent/oil recycling
- Commodities (cardboard, metal, plastics, etc.)
- E-waste

EMERGENCY RESPONSE AND REMEDIATION

ACT provides 24-Hour emergency response services, which can be requested at (866) 348-2800, along with environmental clean-up including:

- Remediation
- Demolition
- Industrial cleaning

FIELD AND TECHNICAL SERVICES

- On-site services
- Equipment decontamination and cleaning
- Lab pack chemical inventory
- Chemical relocation projects
- Biohazard cleaning and disinfection
- Building and facility decontamination and closure
- Confined space entry

CONSULTING AND TRAINING

ACTenviro offers a wide range of consulting and training services, including but not limited to those listed below.

- Preparation and management of safety and environmental plans and programs
- Training for all safety and environmental issues
- Industrial hygiene sampling for employee chemical exposure in the workplace
- Cal/OSHA Injury and Illness Prevention Plan (IIPP)
- Radioactive Materials License (RML)
- Environmental permits and reports

MEDICAL WASTE-TO-ENERGY

ACTmedical's Microwave Disinfection System – the first of its kind in California to offer a waste-to-energy option – will enable you to “go green” by safely disposing of your medical waste in a way that is both economical and environmentally-friendly.

- 80% volume reduction via shredding
- Microwave disinfection
- 1 ton of treated waste can power the average American home for over 2 weeks
- Accepts bio waste, sharps, pathological waste and many other medical waste types

VACUUM TRUCK SERVICES

ACTenviro provides specialized vacuum transportation and disposal services.

- Clarifier, interceptor and sump cleaning
- Tank pump-out, certified cleaning, decontamination and dewatering
- Disposal: Non-Haz, Non-RCRA, oil, oily water, food grades sludge, etc.

BULK SOLIDS SERVICES

ACTenviro also provides comprehensive roll-off and other bulk solid transportation and disposal services.

- Non-hazardous Class II or Class III waste
- Asbestos Containing Material (ACM)
- Construction demolition debris recycling
- Contaminated soil recycling and disposal
- RCRA debris (metal bearing waste)
- Filter cake
- 20 yard / 40 yard bins (rental)

SPECIALTY SERVICES

- High hazard materials
- Stabilization
- Cylinder management
- Hood certification
- Exit sign recycling
- Parts cleaning services
- Li-battery disposal
- Respirator fit testing
- Controlled substances handling
- Chemical sales
- Dangerous goods shipments for FedEx / USPS / UPS

ENVIRONMENTAL ENGINEERING

ACTenviro brings a unique perspective to contaminated sites, with unparalleled understanding of hazardous waste management. Our experience, deep subject matter expertise and knowledgeable technicians enable us to provide expedient, cost-effective solutions to your environmental issues.

- Soil and groundwater investigation
- Initial site characterizations
- RCRA facility investigation/corrective measures studies

PERMITS, CERTIFICATION AND INSURANCE

Our “zero tolerance” policy with respect to safety is backed by ACTenviro’s commitment to maintain five (5) times the insurance required by law. We possess all the necessary permits and certifications issued by local, state and federal agencies, which are available for review upon request. We hold a workers’ comp rating of .77.

Please call (866) 333-9222 to be connected with your local branch. For 24-hour emergency response, call (866) 348-2800.
