Through the pages of the book, Richard Blake introduces readers to the fear and sadness that corrupt the man's heart and file him into a tool of destruction. The author clinically exposes the thought processes and trauma that armed his resentment for being robbed of a childhood that should have normally been filled with laughter and happiness, but was instead wrought with pain.

As the story unfolds, readers will come to understand abuse differently and begin to see the cry for help by broken souls with nowhere to go, who use abuse as an outlet to release the anger stored up over the years.

Describing abuse as similar to a flu shot or a smallpox vaccine that makes its victims immune to trust and the feeling of knowing real love, Richard Blake says he hopes his book will help parents realize that the danger of abuse lurks everywhere, so they can better watch their children.

"I hope this book will open the eyes of parents everywhere that an abused person can be in every profession from the hospital to nursing home, school to churches and folks of authority. There is no place in society where it does not exist, just waiting to rear its ugly head."

Although the book demands that people rationally view the subject of abuse so they can fully understand and be able to prevent it, Richard Blake has however reiterated his support for punishing perpetrators. He however warns that discipline should only be used as a tool for creating a better society, and not trying to control one another.
