CIRRASCALE CLOUD SERVICES ANNOUNCES AVAILABILITY OF SAMBANOVA'S DATAFLOW-AS-A-SERVICE ON CIRRASCALE AI INNOVATION CLOUD

SambaNova's Dataflow-as-a-Service platform enables enterprises to achieve value from their AI investments 22x faster

San Diego, CA -- September 28, 2022 -- Cirrascale Cloud Services®, a provider of deep learning infrastructure solutions for autonomous vehicle, natural language processing (NLP) and computer vision workflows, today announced that it is partnering with SambaNova Systems to offer Dataflow-as-a-Service™ as part of its AI Innovation Cloud platform. Dataflow-as-a-Service is a fully-integrated Foundation Model Platform that delivers pre-trained deep learning and Foundation Models that deliver value to enterprises 22x faster.

"We've been working hard to be an innovation accelerator company that our customers can rely on to deliver the absolute best AI solutions in the cloud," said David Driggers, CTO, Cirrascale Cloud Services. "Expanding our cloud platform to include SambaNova brings us closer than ever to being a one-stop-shop for customers to gain access to the latest, state-of-the-art large language models, such as GPT-175B and true-resolution computer vision."

"Dataflow-as-a-Service enables customers to deploy the most advanced pre-trained deep learning and Foundation Models in days. Customers have been asking us for this solution; we're delighted to announce that it's available today," stated Matt Taylor, VP of Strategic Sales and Partnerships, SambaNova Systems. "Each model is pre-trained, reducing the need for heavy investment and deployment time, and can be fine-tuned within an organization's environment to deliver world record accuracy."

SambaNova Dataflow-as-a-Service is fully integrated platform that delivers production-ready, pre-trained foundation models that can be further adapted through fine-tuning or pre-training to deliver world record accuracy. This enables organizations to quickly deploy state-of-the-art capabilities while avoiding the complexity, financial investment, and time necessary to fully train these models internally. The solution also provides an efficient, scalable approach to large language and computer vision, accessed through simple APIs for ease of use.

Customers can sign-up to use the SambaNova Dataflow-as-a-Service by visiting https://cirrascale.com/sambanova.

About Cirrascale Cloud Services
Cirrascale Cloud Services is a premier provider of cost-effective, high-speed cloud infrastructure solutions for deep learning workflows. The company offers cloud-based solutions for large-scale deep learning operators, service providers, as well as HPC users. To learn more about Cirrascale Cloud Services and its bare-metal server and high-speed storage cloud infrastructure solutions, please visit https://www.cirrascale.com or call (888) 942-3800.
