FEEL YOUR IMAGINATION

Synk X

Synk X is a cross-platform immersive haptic chair integrating next gen technologies to present an amplified immersion in video games, movies, and music. Designed with a streamlined exterior and delicate craftsmanship, Synk X perfectly blends lifelike entertainment into a modern tech lifestyle.

By converting sound waves into vibrations and providing real-time tactile experiences, Synk X offers a sensation of the surrounding and atmosphere from video or audio sources. In addition to the true to life experiences, customization is also supported to match each and every user's personal need with features including: an ergonomic design with a 135 posture-bracing backrest, adjustable armrests that offer multiple settings for seat height, seating position, and reclining angle, a built-in control interface for selecting audio sources, vibration levels, and headphone volume. Furthermore, Synk X makes the operation easy and intuitive without complicated settings or APP requirements.

Designed for sensing the tension in a battle game, engaging in the adventurous journey from a film, or grooving with the musical beats, Synk X provides a new way of immersing in the imaginary world for an enhanced user experience.

SPECIFICATIONS

Product Name	Synk X
Product Number	IXC-SX1-*.***
General	
Chair Dimensions (W x D x H)	27.2" x 22" x 48" ~ 51.2", 69 x 56 x 122 ~ 130 cm
Chair Weight	64 lbs, 29.4 kg
Rolling Base	Ø29.5", 75 cm
Color Choice	Ultra Black, Lunar Gray
Chair Material	High density molded memory foam upholstered in breathable fabric
Safety Load	300 lbs. (135 kg) human body bearing
Safety Load on Rolling Base	2800 lbs. (1300 kg)
Main Body	Steel and wood frame
Gas Lift Height Adjustment	90 mm, class 4 grade
Armrest Height Adjustment	90 mm
Recline Angle	135°
Frequency Range	20 Hz ~ 200 Hz
Battery Module	Rechargeable lithium-ion battery pack (8-cell) 14.8V 5200mAh, core cells of LG
	Provides approximately 8 hours of continuous music play and 4 hours of continuous use of intense bass effects
Charging Time	About 6 hours
Wireless Audio System	
Latency	5.6 ms
Receiving Range	100 ft (35 m), line-of-sight

FEATURES

Lifelike Immersion – Ultra-low latency conversion of sound waves into vibrations to provide real-time tactile experiences for engaging in the virtual surrounding and atmosphere.

Constraint-free Entertainment – Support for a variety of content types and hardware platforms such as TV, PC, game console, and mobile to match differing hobbies or preferences.

Customized Preference – An adjustable ergonomic recliner design as well as multiple modes of user preferences provide a more personalized entertainment experience.

User-friendly Experience – All-in-one system to avoid hassles due to installation and complicated setting requirements.

Durable and Smooth Operation – A highly stable rolling base along with a long-lasting powerful battery to provide uninterrupted extended entertainment durations.

Modern and Tech Identity – A streamlined exterior design delivers a smart tech appearance to add modern delicacy to people's daily life.

Solid Frame and Structure – Built strong with a well-constructed frame and support to withstand long hours of vibration operations.

Premium Seat Material – Using select breathable fabric to offer high quality texture and advanced comfort.

Handy Switch and Control – Quickly adjust the seat and other settings to fit personal preferences with the built-in control interface and 4D armrests on both sides of the chair.

Two-stage Retractable Leg Rest – Providing options for advanced comfort and different postures to satisfy individual needs.

Cooler Master Halo Illumination – Creating an elegant and high-tech atmosphere with 7 modes of ARGB lighting effects to match user preferences.

Stable Battery – Compliant with stringent regulations and battery protection to ensure user safety.
