

Cooler Master Brings Back the Legacy with 30th Anniversary V Platinum 1300

TAIPEI, TAIWAN – Cooler Master today announced a legacy product of high-

end power supply unit under the name V Platinum. Years ago, we announced our V Platinum series crafted with the best materials and packed with performance. It is time bring back the legacy and continue our love chasing the best performance for the power supply. In celebration of Cooler Master's 30th Anniversary, we are releasing the limited edition of our flagship product – V Platinum 1300.

The V Platinum comes in 1300 wattage, which of course have an 80 PLUS Platinum efficiency rating. This product was created for heavy-duty PC use by delivering safe, reliable, and highly efficient power for a new generation of gamers, overclockers, modders, and anyone else who accepts nothing short of greatness from their PC. Here are just some of the features you can expect from Cooler Master's 30th Anniversary V Platinum 1300 rated power supply unit.

- 1300w
- 80 PLUS Platinum Certification
- Full-bridge design with DC-DC technology
- Full-Modular Cabling with high efficiency 16AWG PCI-e Cables
- 135mm Double Ball Bearing fan with new Thermal Regulation Mode (TRM) for quiet operation
- Manual Single/Multi-Rail Switch
- 10 Year Warranty

The V Platinum series were created to meet the needs of a new era of high-end systems. With 100% Japanese capacitors and 92% average efficiency, it offers the quality, reliability, and stability needed for the mega rigs of tomorrow. Whether you're running one GPU or a four card super system, these are the top shelf power supply units you're looking for. And with a 10 year warranty you don't need to wait for the next generation of components to hit the shelves. You can put

one of these in your current system today and upgrade over time for the current generation of GPUs and motherboards.

About Cooler Master:

Established in 1992, Cooler Master is a performance PC component and peripherals brand with a track record for advancing the industry. From the world's first aluminium PC case to our pioneering thermal technologies, we are committed to breaking technological boundaries and challenging the status quo. Our focus is to create a community for individuals who dare to stand out and embrace their inventive identity. Whether new builders use a PC as medium for self-expression, or hardcore gamers set up their battle stations as a confession of character, we revel in being Wired Different. We are a brand aiming to go above and beyond the build-your-own PC experience by creating cool products for awesome people to build in their own unique way.
