Introducing getawayGoGo.com

Last minute only marketplace for faster search and booking

- ✓ getawayGoGo lists only last minute available properties with an arrival date up to 14 days from today.
- ✓ Powerful search tools help travelers quickly find and book properties that match their needs and budget including sort by price, total and best deal.

Communication and bookings are directly between traveler and property manager

- ✓ Travelers and managers can communicate freely.
- ✓ Reservations and payments are made directly with property manager through manager's PMS and are always under manager's full control.
- ✓ Property manager is the merchant of record.

No commission or subscription fees for property managers and No service fee for travelers

OTAs charge travelers and property managers a commission based on a percentage of the reservation which increases prices for travelers and lowers competitiveness for managers.

- ✓ getawayGoGo only charges a flat fee to the property manager when a traveler makes a contact or a booking.
- ✓ No service fees for travelers incentivizes bookings.

Flat rate pricing for contacts and bookings

Traveler Contact (Optional)

A Traveler Contact is made when a logged in traveler clicks on the contact property manager button or when the reservation process has been started.

All subsequent contact property manager contacts for that property's current last minute opening are **FREE**.

\$7 Per First Contact

Reserve Now Bookings

A Reserve Now booking is made when a logged in traveler clicks the reserve now button and completes the reservation process.

If a booking is made for a property opening that has already been charged for a contact, only an additional \$3 will be charged to the property manager for a total of \$10.

\$10 Per Reserve Now Booking
