Ubisec Systems, Inc. Recognized on CRN’s 2023 MSP 500 List

Los Angeles, CA, March 1, 2023 — Ubisec Systems, Inc. ([Ubisec](#)) announced today that [CRN](#)®, a brand of [The Channel Company](#), has named Ubisec to its Managed Service Provider (MSP) 500 list in the Security 100 category for 2023. CRN’s annual MSP 500 list identifies the industry-leading service providers in North America who are driving a new wave of growth and innovation for the channel through forward-thinking approaches to managed services, helping end users increase efficiency and simplify IT solutions, while maximizing their return on investment.

MSPs have become a vital part of the success of businesses worldwide. MSPs not only empower organizations to leverage intricate technologies but also help them keep a strict focus on their core business goals without straining their budgets.

The annual MSP 500 list is divided into three sections: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on- and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premises and cloud-based security services.

Ubisec was chosen for the CRN MSP500 list in the Security 100 category due to their consistent commitment to providing innovative and effective IT managed security services and solutions that prioritize the security needs of their clients.

“Managed services offer a path for businesses of all sizes to remain efficient and flexible as they grow,” said Blaine Raddon, CEO of The Channel Company. “The solution providers on our 2023 MSP 500 list are bringing innovative managed services portfolios to market, helping their customers win by doing more with the IT budgets they have and freeing up resources to focus on mission-critical activities to drive future success.”

“Being recognized on the CRN MSP500 list in the Security 100 category for the 6th time in 7 years is a testament to our unwavering commitment to excellence in the IT managed security services industry,” says Edward Sohn, President & CTO of Ubisec. “We are proud to play a critical role in enhancing the security posture of organizations worldwide and remain committed to pushing the boundaries of what is possible. Our team’s expertise and certifications in the latest cloud and cybersecurity threats and technologies enables us to deliver proactive and comprehensive security solutions that help organizations worldwide safeguard against cyber threats.”

The MSP 500 list will be featured in the February 2023 issue of CRN and online at www.crn.com/msp500.

About Ubisec Systems, Inc.

Cutting-edge Cloud and Managed Security Services for small to large enterprise.

Ubisec is raising the standard for IT service delivery. We offer enterprise-class solutions specifically designed for California SMBs and SMEs. Over the last 18 years, Ubisec has developed a reputation for delivering quality solutions that optimize, grow, and scale businesses, thereby improving operations, increasing ROI, and securing a competitive edge in their respective markets. We aim to solve all of your existing IT issues and keep you protected with full-stack cybersecurity solutions, while utilizing our deep technical expertise to help you avoid future pitfalls. Let our outstanding business technology take your organization to the next level.

At Ubisec, we are committed to creating long-term client relationships built on trust. We understand the frustration of dealing with underperforming technology and unreliable support, of being left to feel like a small fish in a big pond where IT vendors prioritize the time of larger businesses. We know that your technology is vital to your success, but it is complex and unpredictable. By enlisting our Managed IT solutions, you can operate your business with confidence, security, clarity, and guidance, backed by our years of experience and commitment to reliable service delivery.

Our partnership begins with a simple chat. We want to know as much as we can about your business, and the issues caused by ongoing technological hurdles. We'll dive deep into your current situation to discover which solutions will best fit your business needs and develop a roadmap for successful outcomes. We want to make sure that our service is the perfect fit for your business — so much so that if we determine our solutions aren't right for you, we'll happily refer you to a more suitable provider.
