

**FOR IMMEDIATE RELEASE**

## **Vector CAG Celebrates 10 Years of Turnkey Instrumentation, Automation and Control Solutions**

**Pearland, TX, March 9, 2023** - Vector Controls and Automation Group (Vector CAG), a leading manufacturing representative, distributor, and valued partner for application solutions, is proud to celebrate its 10th anniversary. In commemorating the milestone, Vector CAG held a 10-year anniversary celebration at its state-of-the-art Process Training Unit® Customer Center.

Established in 2013 and headquartered in Pearland, Texas, Vector CAG resulted from six companies merging into one entity to bring more value to its customers and manufacturing partners. Vector CAG provides top offerings for instrumentation and automation, analytical, mechanical, and service solutions nationally across a diverse range of industries, including oil and gas, food and beverage, chemical and petrochemical, water and wastewater, power, and more. Vector CAG partners with best-in-class manufacturing companies to offer expert technical support and packaged turnkey solutions to the marketplace.

“Vector CAG’s commitment to finding the best possible solution and delivering a world-class customer experience is what sets us apart,” said President and Managing Partner Jared Boudreaux. “Since its inception, we have tripled our employment and been awarded Top Work Places by the Houston Chronicle for the last five years. We attribute our success to our people, who have been instrumental in growing the organization at such a rapid pace. We want to thank our customers who have given us the opportunity to earn their business. We appreciate our manufacturing partners for supporting us through good and challenging times. I’m excited to see how our evolution as a company will impact the next ten years.”
