

## **NEW MILLENNIUM**

*A Steel Dynamics Company*

**FOR IMMEDIATE RELEASE**

### **New Millennium and Steel Dynamics build success together at NASCC**

FORT WAYNE, INDIANA, March 31, 2023 — At this year's NASCC: The Steel Conference, steel companies New Millennium and Steel Dynamics are showing the industry why they are the team that makes a difference for their customers. The steel giants are exhibiting their strength of leadership, the reach of nationwide facilities and the support of skilled steel specialists.

Showcasing their comprehensive range of steel products and services in a combined 60-foot-by-20-foot booth (1602-1610) at the steel industry's premier event, New Millennium and Steel Dynamics are inviting visitors to see the difference their teams make when collaboratively working toward a common goal for their customers. While visiting the booth, attendees can:

- Learn about successful projects and product applications
- Get expert answers to their questions
- Explore hands-on product displays
- Discover cutting-edge new products

"For the needs of a wide range of applications, markets and customers, together we offer comprehensive steel products and services that lead to project success," said Joe Voigt, Marketing and Business Development Manager at New Millennium. "Our combined booth at NASCC underscores our commitment to supporting our customers with knowledge and expertise plus the capabilities and capacity to provide the structural solutions they need. We are truly building success together."

NASCC: The Steel Conference runs from April 12 to 14 at the Charlotte Convention Center in Charlotte, North Carolina. During the education portion of the event, New Millennium team members will share their engineering knowledge and insights during the following sessions that offer 1 PDH credit:

#### **Finite Element Analysis of Web Crippling Behavior of Cold-formed Steel Members**

3-4 p.m. EDT Wednesday, April 12

Vitaliy Degtyarev / Design and Research Engineer

#### **Best Practices When Detailing and Designing with Steel Joists**

11 a.m.-noon EDT Thursday, April 13

Brian Cameron / Project Lead

#### **Best Practices When Selecting and Detailing Steel Deck**

1:45-2:45 p.m. EDT Thursday, April 13

Joseph Craigen / Detailing Lead

#### **Concentrated and Non-Uniform Loading on Steel Deck**

10:45-11:45 a.m. EDT Friday, April 14

Josh Canova / Design Engineer
