As a leading expert in low-code development and Mendix, Kinetech is committed to helping organizations across the public and private sectors optimize their technology infrastructure and accelerate digital transformation. The Michigan IT Leadership Conference provides an excellent platform for us to engage with industry peers, share our expertise, and showcase our innovative solutions.

Kinetech's sponsorship of the event highlights our commitment to supporting the growth of the Michigan IT community and advancing the state's technology infrastructure. We are excited to participate in this year's conference, which promises to bring together top IT leaders and decision-makers from across Michigan.

If you're attending the Michigan IT Leadership Conference, be sure to stop by our booth to learn more about our low-code solutions and how they can help your organization achieve digital success. We look forward to meeting you there!

Attendees can expect to learn more about the benefits of low-code development and how it can help organizations across the public and private sectors accelerate their digital transformation initiatives. As a leading provider of low-code solutions, we'll be showcasing our expertise in Mendix and highlighting some of the best practices we've observed in the GovTech industry around the world.

In addition to our innovative solutions, we offer flexible contracting options to meet the unique needs of your organization. We have a Master Services Agreement (MSA) with the State of Michigan and a 'ride along' contract, which allows us to extend purchasing terms to your organization. Additionally, as of this Spring you may now procure Kinotech services via the Amazon Marketplace (listings coming soon).

We look forward to meeting you at our booth and showcasing our low-code solutions that can help your organization achieve digital success. Don't miss this opportunity to learn about the latest GovTech trends and network with top IT leaders and decision-makers from across Michigan.

About Kinotech:

Kinotech is a leading developer of Low-Code based, cloud-native, digital experience, and core systems software applications for the financial, industrial, and public sector markets.
