## **Synagro to Highlight Products and Services at Residuals and Biosolids 2023 Conference**

*Company Will Host an Uptown Charlotte Evening at Middle C Jazz*

**BALTIMORE, Maryland, May 9, 2023** – [Synagro Technologies, Inc.](#), the preeminent provider of biosolids and residuals solutions services in North America, is pleased to announce its participation in the Water Environment Federation and International Water Association Residuals and Biosolids (R&B) 2023 Conference in Charlotte, North Carolina, May 16-19, 2023, in the Charlotte Convention Center.

Meet Synagro’s professionals at Booth 412 to learn about the many ways Synagro can assist you with biosolids and organic feedstocks management. From thermal drying to digester cleaning, when it comes to biosolids, our mission is to be the most trusted provider of resource recovery solutions. We help our customers identify their needs and the solutions that are best tailored to most economically address those needs.

“We are looking forward to exhibit at the R&B 2023 conference in Charlotte, and to showcase all of our products and services,” announced Pam Racey, chief commercial officer, Synagro. “We’re also hosting conference attendees at our Uptown Charlotte Evening featuring top-shelf live entertainment on Wednesday night from 7:00 to 11:00 p.m. at Middle C Jazz, ‘Charlotte’s home for cool,’ right across from the Convention Center.”

Synagro urges conference attendees who may not have already received an invitation to stop by Booth 412 and pick one up as space is limited.

### **About Synagro**

Founded in 1986, Synagro Technologies, Inc. works to turn waste into worth by helping more than 1,000 municipal, industrial water and wastewater facilities, and agricultural partners in North America move toward safer, cleaner and more environmentally beneficial practices. For some, it’s simply cleaning the water supply. For others, it’s much more – we partner with them to process their waste for compost or energy pellets, creating healthy soil and sequestering carbon in the process. As the largest recycler of organic by-products in North America, we’re trusted because we remove risks while keeping the logistics clean. Because we have the most experienced team in the industry, we can offer tailored solutions that ensure no waste goes to waste. Much of our work isn’t pretty. But it’s a greener world emerging from a cleaner one – worth coming from waste – and we think that’s pretty beautiful. Visit [www.synagro.com](http://www.synagro.com) to learn more.
