

Uooce Inc. Launches Aoboo D1 - The Ultimate Disposable Vape Pen for CBD, HHC, and THC Oil Lovers

[Uooce](#) Inc. a leading vaporization technology company based in Colorado, is proud to announce the launch of its latest product, the [Aoboo D1](#) disposable vape pen. The Aoboo D1 is the ultimate solution for vaping enthusiasts looking for long-lasting flavors, exceptional performance, and unparalleled convenience.

Featuring natural and long-lasting flavor, a clogging-free vaping experience, and a diverse and exclusive battery housing finish and texture, the Aoboo D1 is a remarkably upgraded large-volume vaporizer. With a 350mAh battery capacity and 2ml volume, it offers a satisfying vaping experience that lasts longer than ever before.

"We are thrilled to launch the Aoboo D1, which represents the pinnacle of our dedication to

excellence in vaporization technology," Xael, Manager at Uooce Inc said, "The Aoboo D1 is the perfect disposable vape pen for CBD, HHC, and THC oil lovers who demand the best in terms of performance, convenience, and design. With our professional support, we aim to enhance customer success and satisfaction."

At Uooce Inc., we are dedicated to producing high-quality vaping products that offer custom hardware design and dynamic customization options, like [Uooce S11](#). Our state-of-the-art production center is located in the birthplace of the e-cig industry and boasts 1,600 square meters of space, 9 cutting-edge production lines, 18 seasoned technicians, and 160+ skilled workers. We are committed to delivering the best in vaporization technology and empowering the cannabis community with innovative and reliable vaping devices.
