

**100%**

of shooters are experiencing a mental health crisis combined with rage.

the mass shootings are a suicide mission with the expectation of suicide by cop

their rage and hate are the plan to take down their targets before their own suicide

The Violence Project  
Mother Jones

**243**

deaths and injuries per day from Jan 1 to May 10, 2023. (in 129 days)

that is a total of 31,342 deaths and injuries from firearms

this number includes 2241 children and teens, or 17 per day

Gun Violence Archive

**77%**

of USA states report a shortage of mental health service providers. 55% of counties do not have a psychiatrist.

Even if there were enough mental health professionals to service the population in every geographic region, the cost is prohibitive and not always covered by Mediciide
